When a woman refuses to confess her age she does.

A critic says flapperism is a state of mind. If any.

There are good citizens, and then there are citizens who speak of government as "they."

About the easiest way to keep a man from growing great is to deny him all opposition.

When a city takes measures to entertain a convention now, they are not liquid measures.

Sunday still is observed and respected, however, by those to whom Saturday night is bath night.

And another reason why Eve didn't use cosmetics was because she didn't have any competition.

So long as good citizens dodge jury service they must continue to dodge stray bullets at intervals.

Airplane travel isn't really safer now. It just seems that way because there are no holdup men up there.

It's fair enough. Americans go to Europe for polish and European celebrities come over here to shine.

The old-fashioned man who drank from a finger bowl now has a sophisticated son who drinks the shoe polish.

If we knew the number of rich people we would know the number of those who think riches don't bring happiness.

Man is ruler of the world, but he doesn't feel conceited about it when cutworms get at his tomato plants.

At this distance it is hard to decide whether to credit the allies with an error or mark Russia too hot to handle.

Executive: One who has a private office where he can succumb to the weather and take a nap without attracting attention.

When a bull-headed statesman can't have his own way, it is easy to make the people believe that national honor has been offended.

The groom always is a little astonished when his name appears early in the story instead of with the "among those present were."

Man may be superior to woman in some ways, but he can't pay a compliment that will make the recipient squirm in impotent wrath.

When one sees a girl painted like that, one can't help yearning to take her to some quiet place and show her how to put the stuff on.

Feminism advances rapidly, but we shall be spared the sight of woman pulling on a cigarette while darning the children's stockings.

BLUE LAWS.

The sheriff of Hillsboro county has given Tampa quite a fright by threatening to enforce every law on the statute books relative to Sabbath observance. He may do so, but it is doubtful if juries will be found to convict those arrested for violations.

There are many foolish laws on the books, just as there are many cranks who would like to see them all enforced. But all the laws in the world are not going to make all the people perfectly good, and if Christianity had to appeal to law to help it out it would be confession of its own weakness. But Christianity makes no such appeal—it is some misguided follower.

If the law were enforced in Florida to the letter, there would be no automobiles rolling, no one could buy a cigar or a cool drink. The bath houses would close up and we would all have to remain at home and be anything but good by spending the day cursing our laws and the enforcers thereof.

Respect for the Sabbath should be inherent in every man and woman. We are taught from the cradle that

it is the Lord's day and should be observed as such. If our training and our respect for the Almighty does not compel us to a reasonable observance of the Sabbath no man-made law will do so.

The laws, many of them, are ridiculous. Surely it is not a sin to go over to Daytona Beach, don a bathing suit and spend an hour in the surf. Is the purchase of a glass of lemonade and the drinking of it on a hot day a sin? Few people will contend that it is.

Many of the so-called blue laws might well be repealed for the protection of the public against cranks, who cannot realize the difference between reasonable and unreasonable law enforcement.—Daytona Journal.

ADMINISTRATION TO HANDS OFF IN BIG COAL STRIKE

(By Associated Press)
 Washington, June 13.—The White House stated today that the administration is not contemplating any important immediate or drastic action in the coal strike.

ful products are being driven out of business.
 "When the government permits one of its departments to violate the prohibition laws on the most extensive scale in the world it helps create a condition which aggravates the difficulties of those manufacturers who have spent millions of dollars to convert their properties for the production of lawful products, and who, as a matter of good citizenship, have obeyed the law."

The letter further says that the government in violating its own law sets an example of "hypocrisy, unparalleled in the history of the republic."

Haynes to Make Investigation.
 Washington, June 14.—Prohibition Commissioner Haynes declared today

COUNTY SOLICITOR GAINED 21-2 LBS. IN TEN DAYS

REMARKABLE GAIN IN WEIGHT SHOWN BY FERRALINE USER.

Mr. W. W. Lavender, County Solicitor of Bibb County, Alabama, gained two and a half pounds in about ten days after starting to use Ferraline.

This is a wonderful record, but no more wonderful than that of many others who have written to the Ferraline Medicine Company recounting their experiences with Ferraline. In making his report Mr. Lavender says: "I desire without solicitation or hesitation to commend to those people who are overworked or are in a run-down condition to try Ferraline as a tonic. I took two bottles and felt almost like a new person and gained two and a half pounds in about ten days."

Start using Ferraline right now and begin your steady, regular climb to perfect health. The natural Iron in Ferraline will bring you vitality and stamina. Don't be a weakling—don't be scrappy. Buy a bottle of Ferraline today.

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Thedford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which gripped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

in a formal statement, referring to "Prohibition Afloat," pamphlet issued by the Anheuser-Busch company, that he would act in a vigorous manner to enforce the law as soon as the department of justice and courts determined where the Volstead act applies to vessels sailing under the American flag. He added that he would not break one law to enforce another.

Busch Has Another Letter.

St. Louis, June 14.—The Anheuser-Busch company, in an announcement today said that a second letter is in preparation to the shipping board on the subject of liquor sales. The letter will state that the Anheuser-Busch concern will reserve the right "to protest when the United States government buys German beer to sell on its ships and will not let American beer be made."

Lasker Makes Answer.

(By Associated Press)
 Washington, June 14.—The shipping board holds that "neither the Volstead act nor the eighteenth amendment apply to American ships outside the three-mile limits." Chairman Lasker declared today in a letter to Adolphus Busch III, vice president of the Anheuser-Busch Brewery company of St. Louis. Confirming reports that alcoholic drinks were being served on American ships at sea, Mr. Lasker asserted that the shipping board had approved this custom "both from the standpoint of legal right and from the standpoint of the life and security of our national merchant marine."

The shipping board has permitted and will continue to permit the serving of liquor on its ships," he continued, "so long as foreign flag ships are allowed to enter and depart from our shores exercising that privilege."

Mr. Lasker's letter was in reply to a communication addressed by Mr.

Busch to President Harding with reference to alcoholic drinks being regularly served on shipping board vessels at sea. The matter had been referred to him, the shipping board chairman explained, since "the president is unacquainted with the subject you cover."

While it was true, Mr. Lasker said, that an assistant attorney general "in the prior administration" had held that the prohibition laws were effective on American shipping wherever operated, the present general counsel of the shipping board, his two assistants and the chairman himself were convinced that such an opinion was not soundly based and had approved the inclusion of wine lists as regular equipment of boats operated under the board's supervision, for use, however, only beyond the jurisdictional coastal line.

"The prior chairman (of the board) had issued orders that the Palmer opinion must be respected," Mr. Lasker said, "but it is true that in fact during the Wilson administration in so far as the shipping board operated passenger ships liquor was served."

Chats With Your Gas Man

If you are using defective gas tubing, discard it. Do not mend it.

It is criminal carelessness to try to keep in use gas tubing that will permit even an infinitesimal amount of gas to escape, by patching it with tire tape, putty, rags, soap, or bread dough, as has been shown upon investigation to have been done in many instances.

Worn-out gas tubing should be replaced by purchasing only the best grade of tubing. It may cost a few cents more, but it is worth it.

Ask for and insist upon having only the highest grade, for such tubing is absolutely odorless and will last longer than the inferior articles which are sold for a cent or two less per foot than the superior make.
